Bespoke Wedding Website Requirements

Design

Your Wedding Website can be custom made to suit your needs. Why not have the same design as your wedding stationery. Or leave it up to our design team to construct you a website that is unique to you. Whatever you choose Absolute will be happy to accommodate!

Login Page

Password (No more than 8 characters)

Home Page

Name of Couple, Wedding Date, Photo of the happy couple. Some text for your home page.

Venue Page

Name, Address & Photos of Wedding Venue(s). Website addresses so we can link direct to their website for directions etc. A list of nearby Hotels for guests who are travelling from afar.

Wedding Gift

If you have a wedding list at a particular store that will manage the gift list for you, such as at John Lewis, Argos, etc we can set up the necessary texts to guide your guests to the correct place. If your list is available online, links can be made to make this process easier.

If, however, you choose not to have a wedding gift list but would prefer an alternative, such as holiday gift vouchers for the honeymoon for example, we can set up the required descriptions and links to a Travel Agents' website where guest can purchase vouchers directly. Pre-holiday images can be displayed here, if desired.

Schedule

Schedule of the days events, detailing the approximate start time of each segment of the wedding, such as the time guests are to arrive, the ceremony, etc.

Menu

Details the Wedding Breakfast Menu. If required, an email link can be placed on this page to request information from your guests for anyone with special dietary requirements.

Seating Plan

Once you have had your RSVP's back and have decided where everybody is going to sit we will list the table plan for you, by table.

Photos

After your wedding is over and as soon as your wedding pictures are gathered, we can upload up to 100 photographs to your website and displayed to your guests. Once uploaded, you will be able to log into the website using a special password to add captions to your photos yourself, if required. The images need to be supplied at a maximum width of 500 pixels and a height of 500 pixels, at a resolution of 72dpi. If necessary, these reductions can be done for you by our graphics team - please ask for more information.
